

# **Gender Revolt Manifesto**

**It takes a village to raise a gender**

**My pronouns belong to me, not you**

**In gender we are both subject and object**

**Group think creates gender**

**Your gender is assigned without your consent**

**Your race/ethnicity won't change even once, but  
your sexual orientation may very well change, maybe twice**

**Your privacy will not protect you**

**Science is a social construct**

**My gender confirms your gender**

**Name your gender  
or die**
